

Report on Poster Making Competition – National Science Day

Pestle Weed College of Information Technology, Dehradun

Date: 28-02-2026

On the occasion of **National Science Day**, **Pestle Weed College of Information Technology, Dehradun** organized a **Poster Making Competition** on **28th February 2026** to commemorate the discovery of the Raman Effect by the eminent Indian scientist C. V. Raman. The event aimed to encourage scientific awareness, creativity, and innovative thinking among students.

The competition was conducted in the college with great enthusiasm and participation from students of various departments. The theme for the competition was **“Science and Innovation for a Sustainable Future.”** Participants expressed their ideas through vibrant and thought-provoking posters highlighting topics such as renewable energy, artificial intelligence, space technology, digital transformation, environmental conservation, and emerging scientific advancements.

The program commenced with a welcome address, followed by an inspiring speech by the respected Principal, **Dr. Anita Verma**, who served as the **Chief Judge** of the competition. In her address, she emphasized the importance of scientific temperament and innovation in the development of society and encouraged students to actively engage in scientific exploration. The evaluation process was conducted with fairness and transparency under the supervision of the **Observer Committee Head, Dr. Shobha Kaila**. The posters were judged on the basis of creativity, originality, clarity of message, presentation, and relevance to the theme.

The participants demonstrated exceptional creativity and awareness of current scientific issues. Their artwork reflected not only artistic excellence but also a deep understanding of science and its impact on modern life. The winners were awarded certificates of appreciation, and all participants were applauded for their efforts. The event concluded with a vote of thanks extended to the Principal, the Observer Committee Head, faculty members, and students for their valuable contribution in making the event successful.

The Poster Making Competition was a grand success and served as a meaningful celebration of National Science Day, reinforcing the significance of science and innovation in shaping sustainable and progressive future.
